COMPANY POLICY · FINANCE

Travel Policy

> **Sample / fictional content for training and screenshots only.** Figures and rules here are invented for the Copilot Studio module and are not a real company policy.

Policy owner: Priya Menon, Finance Operations Lead
Effective date: 1 January 2026 (supersedes the 2025 version)
Applies to: All employees travelling for business.

1. Booking travel

- Book through the approved travel tool wherever possible.
- **Flights:** economy for journeys under 6 hours. Business class is allowed for journeys **over 6 hours** with **Department head approval**.
- **Rail** is preferred over air for domestic journeys where the total door-to-door time is comparable.

2. Mileage

- Personal-car mileage is reimbursed at **€0.42 per km**, updated on **1 January 2026** (the previous rate was €0.38).
- Mileage claims go through the expense process in the **Expense Policy**.

3. Per-diems (meals and incidentals)

Travel type	Daily per-diem
Domestic	€40
International	€65

City-specific per-diem caps for high-cost locations are listed in **Appendix A**. *(Appendix A is still being finalised and is not yet published.)*

4. Accommodation

- Standard cap of **€180 per night**; higher-cost cities may exceed this where Appendix A applies.
- Book refundable rates for trips more than 30 days out where the price difference is under 10%.

5. Reimbursement

All travel spend is reimbursed through the process in the **Expense Policy**, including its approval thresholds and submission deadlines. Where a travel-specific rate here differs from a general figure elsewhere, **this Travel Policy takes precedence** for travel items.

6. Questions

For anything not covered here — including regions not yet in Appendix A — contact the policy owner (Finance Operations) rather than assuming. This document is reviewed twice a year.
